1:00 to 1:50PM	<p>Course-Setting Conversation</p> <ol style="list-style-type: none"> Consider the strengths and weaknesses of the Council's STEM education portfolio and offer us suggestions for where we could do more to advance our mission to "increase the interest and achievement of Iowa preK-12 youth in STEM" <i>especially the under-served</i>. In doing more, or doing new things in a given area, limited resources require redistribution of human and/or financial resources. From where should we pull to re-direct resources? How well are we leveraging your own investment in service to our Council? (i.e., Are you as involved as you wish to be? Are we maximizing your talent, wisdom and interest?) What "grade" would you assign to this organization and why?
1:50 to 2:00PM	<ul style="list-style-type: none"> Upcoming Events – Jeff Weld and Team Closing Remarks and Reflections from Co-Chair Roger Hargens
